3rd Party Apps RFI

Summary

July 18, 2014

Agenda

Introductions –   10 minutes
Purpose of the RFI – Ivan Handler   10 minutes
Summary of results – Ivan Handler   20 minutes
Report from Statewide Health Information Network of NY   10 minutes
Discussion   40 minutes
Adjourn

Why this RFI?

- ILHIE wants to increase its value proposition
- A state run 3rd party hosting platform is new
- We need to show there is interest
- We wanted to start a conversation
    - We have plenty of ideas
    - You have plenty of ideas
    - We want to hear from you before launching anything official
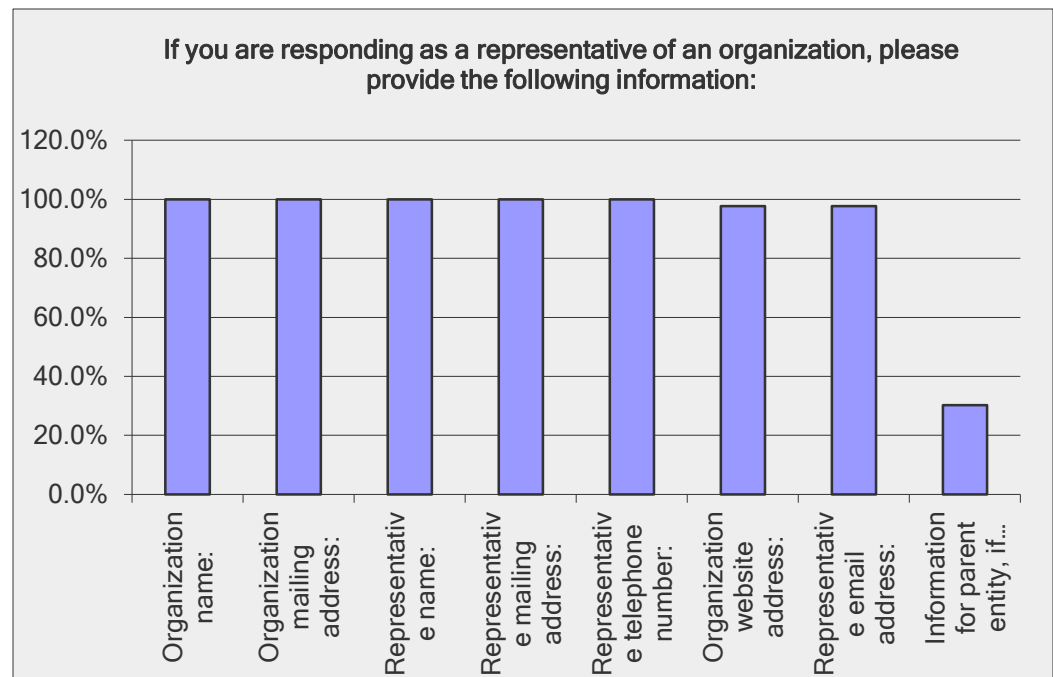

ILHIE's goals

- Create value for our clients – healthcare providers
- Serve state agencies
- Save time and money
  - Provide services without RFPs
  - Competitive markets hold down costs
- Help create interoperability standards
  - Current standards are weak, vague
  - Oriented toward individual providers
  - Need to orient standards for massive data sharing
- Help create better standards around privacy

RFI Results

Participants

- 4 individuals
- 39 organizations

If you are responding as a representative of an organization, please provide the following information:

Developer Interest

Are you interested in becoming an ILHIE App developer?

Answer Options	Response Percent	Response Count
Yes	83.3%	35

ILHIE Apps RFI Survey

Participation in the ILHIE, including ILHIE Direct or the Public Health Node (PHN) Are you a current ILHIE user or client?		
Answer Options	Response Percent	Response Count
Yes	2.4%	1
No	97.6%	40
answered question		41
skipped question		35

A Vision Sketch

The Basic Model

- ILHIE provides infrastructure
  - Connection to Healthcare providers
  - Connection to state agencies
  - Privacy, Security, Authentication & Audits
  - MPI & RLS
- Vendors provide applications
  - For ILHIE clients
  - For other clients of the State of Illinois
- "Regulation as a Service"

What Needs to be Done?

- Legal agreements
- Create/Use/Refine standards
- Define APIs
  - Soap
  - Rest
- Create certification process
- Create billing & payment processes
- Governance process

How do we move forward?

- ILHIE suggests we move slowly
- Agile process
  - Find simple application need (including a client)
  - Define a simple API
  - Do the rest: legal, billing, compliance, etc.
  - Run as a pilot
  - Declare victory
  - Do a few more increasing sophistication
- Simple governance to start
- At some point start a robust governance process
